Mobile Retailing and Hospitality

MT-4308W

Ergonomic and Versatile Mobile POS

The MT-4308W mobile POS is the latest member of MT Series – a hybrid solution that provides businesses with the mobility of a tablet and the functionality of a fixed POS terminal. It is an 8" tablet supporting MSR/RFID attachment, pistol grip with built-in 1D or 2D barcode scanner, 2nd removable battery and an optional dock station to transform the device into a full-fledged, stationary POS.

Built for Business Mobility

Running on Intel Cherry Trail processor, the MT-4308W is a Windows based tablet, designed to meet business applications and requirements. It features a very durable construction and survives up to 1.5 meters drop.

Patented Technology (U.S. Patent 9436226 B2)

It can be fitted with the pistol grip that has an optional barcode scanner, and convert into a data collector. This ergonomically designed pistol grip shape handle was purpose built for easy carrying; it also houses a removable battery to vastly extend the overall operating time.

Multi-use Versatility

With the pistol grip, the MT-4308W can be used for inventory, line busting or ticket taking. The tablet hand strap is ideal for servers on the go. An encryption-capable magnetic stripe reader optimizes the tablet's usability in loyalty program.

Get Even More With A Dock Station

The optional dock station for the MT-4308W integrates a wireless 3" thermal printer and full suite of connectivity options. When the tablet is integrated with its dock station, an all-in-one POS is instantly at your disposal.
