XT-3817

POSIFLEX

In today's retail and hospitality market, POS terminal is no longer just a cold and hard business tool. It is a part of the store decoration, a part of the store image. Each curve and detail of the POS terminal should add something to the overall mood of the store, to lift the shopping experience of the customers.

With a bezel free touch screen, large 17" display, beautifully sculptured slim body, sexily curved base stand, XT-3817 looks right at home at any elegantly decorated store. And more than just good looks, XT-3817 also offers ample of performance and flexibility to satisfy the most demanding of daily POS operations

GEN8E Base

Optional GEN8E Base that integrates internal power adaptor and Powered USB port into the base stand, which allows for clutter free counter.

Looks

XT-3817 comes from new Posiflex design language. Slimmer and sexier than ever, it is a sharp departure from the traditionally more conservative Posiflex terminal design. Every curves and details are carefully thought out to make XT-3817 one of the most visually desirable terminals in the market.

Flexibility

XT-3817 comes with the selection of two foldable bases, the curvy slim GEN7E Base and the larger but practical GEN8E Base. [U.S Patent 9004436]

This foldable base allows XT-3817 to be configured into different configurations. "Flat Folded Mode" to save the shipping package volume. "Low Profile Mode" to allow greater interaction between cashier and the customers; and the traditional "Full Extended Mode". All this can be achieved with a simple pull of the hidden lever. This one terminal/multi-configurations concept provides unmatched flexibility to store owners and system integrators alike.
